

St. Wilfred's College of Law

Affiliated to Mumbai University

Near Shedung Toll Plaza, Old Mumbai-Pune Highway, Panvel, Dist Raigad, Navi Mumbai-410206

3.2.1: Institution has created an ecosystem for innovations, Indian Knowledge System (IKS), including awareness about IPR, establishment of IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident

Since innovation entails the introduction of fresh concepts and viewpoints into people's minds, it ought to be valued and integrated into everyday life. The best venues to find bright, creative minds are colleges, because society-building is vital to the progress of humanity. An atmosphere that fosters the generation of fresh concepts is conducive to creativity. At St. Wilfred College of Law, we strive to foster students' innovative thinking by providing them with the

- **IPR and Innovation Cell**
- **Research & Development Cell**
- **Co-curricular Activities Cell**

At St. Wilfred College of Law, we work hard to help students develop the new skills necessary to run profitable start-up businesses in the industry. To help students improve their capacity for self-expression, the Training and Placement unit regularly hosts training courses on communication techniques and personality development. Industry insiders are welcome to learn new technical skills and stay up to date on industry innovations. Through knowledgeable lectures, an attempt is made to deepen their comprehension of the significance of intellectual property rights (IPR). Research is the process that produces intellectual property. Many undergraduate students have participated in projects under our approach of self-sponsored internal research over the last three years. Our college's "Research Development Cell" (R&D Cell), which is made up of the principal and senior members from each discipline, is another way we help the research environment.

The R&D Cell invites students to take part in several research competitions, including debate, model-making, quizzes, oral and poster presentations, and quizzes. The institute offers all the resources that could be needed to build an incubation center. The Institute regularly hosts guest lectures on entrepreneurship and starting enterprises in order to encourage students' inventiveness. For the benefit of the students, the R&D Cell and the IPR and Innovation Cell collaborate effectively.
